SOURCE

1. Five SIS trucks and 4 motorcycles left the VP barracks in Torgau on 22 June 1951 carrying Volkspolizei personnel on a special mission for the party. They had been alerted for approximately one week. All of them wore civilian clothing. The trucks as well as the motorcycles had no VP numbering plates. One trailer carried a load of straw. Members of another Volkspolizei unit had the impression that the load was rather heavy and believed that the vehicle carried arms and ammunition camouflaged with straw. No information was available on the destination of the convoy which traveled west. It is believed that the detail was sent to the zonal border to be employed for smuggling illegal shipments of material.
2. A Volkspolizeirat stated that a Volkspolizei detail had recently crossed the zonal border to organize resistance groups in Western Germany. He stated that they had no motor vehicles with them and were scheduled to stay in Western Germany for a long time.*

25X1A * **Comment:** Although somewhat vague and incomplete, this report is submitted because it contains data indicative of the establishment of resistance groups in Western Germany. Efforts have been initiated to obtain further information.
